Interim Housing Needs Report

P057—UBCM Housing Strategy Revision Plan Update Completed

Interim Housing Needs Report
DISTRICT OF WELLS

1. INTRODUCTION

Provincial Guidelines

This interim report outlines a targeted update of the Housing Needs Report (HNR) for the District of Wells. This interim report integrates data from the Statistics Canada Census 2021, BC Stats, and BC Assessment. This update will ensure that the District meets its Provincial Housing Needs Report requirements and has a critical tool to help address the current housing needs in the community.

In 2023, the Province of BC announced changes to the Local Government Act requiring municipalities to prepare Interim Housing Needs Reports by January 1, 2025, which must include:

- The number of housing units required to meet current and anticipated need for the next five and 20 years, as calculated using the HNR Method provided in the Regulation;
- A statement about the need for housing near transportation infrastructure that supports walking, bicycling, public transit, or other alternative forms of transportation; and
- A description of the actions taken by the local government since receiving the most recent HNR to reduce housing needs.

By the end of 2025, the District of Wells is also required to review and update its Official Community Plan (OCP) and Zoning Bylaw (*currently underway*) to ensure there is enough capacity to accommodate the housing need identified in this Interim HNR.

Interim Housing Needs Update

This interim housing needs report is divided into five sections:

- 1 **Housing Actions to Date** – This section outlines the actions taken by the local government since receiving the most recent HNR to reduce housing needs.
- 2 **Housing Needs: 2021-2041** – This section outlines the number of housing units required to meet current and anticipated needs for the next five and 20 years, as calculated using the HNR Method.
- 3 **Key Areas of Local Need** – This section outlines the District's updated statements of need, including a new statement of need related to housing near transit and active transportation infrastructure. Additional data supporting the key housing statements can be found in **Appendix A**.
- 4 **Additional Housing Challenges** – This section outlines external factors that may influence the housing need and demand that may not be fully captured by this Interim update.
- 5 **Recommendations & Next Steps** – This section outlines how the District intends to continue its efforts to address the housing needs identified in this Interim Housing Report.

Background:

The District of Wells has been in a transformational phase over the past year as new Officers (CAO and CFO) implemented new systems and processes District wide. As a best practice for Local Governments access to financial institutions for financial information processing transactions is a staff responsibility under the authority of the Officers, primarily Chief Financial Officer and Chief Administrative Officer. Signing authority for transfer of funds via cheque typically extends to the Mayor and assigned Councillor(s). Ongoing Financial Reporting at public Council meetings is provided for Council and the public to ensure transparency.

As per the Community Charter, the Mayor has authority to enact a Standing Committee on Finance and Audit consisting of the Mayor and a majority of members of Council as appointed by the Mayor, with staff representation as required. The typical purpose of a Finance and Audit Committee is to provide financial, risk management, and audit oversight of District financial operations and provide a forum for discussion of District financial issues.

District of Wells—Strategic Priorities Projects Tracking Grid
Version 7.0—2024 11 19

Overview

In June of 2022, the Municipal Affairs--Province of BC provided a Municipal Advisor, Gary Nason, to support the District of Wells with support to review Operations and Governance of the District of Wells. Out of that process, this Project Tracking Grid has been created and will be maintained and reported on at Regular Council meetings going forward.

Categories

Categories 1 to 3 were created to help place priority levels on projects and make clear what projects are ongoing and closed/completed. The following information clarifies each category:

Category 1: “Best efforts made to complete the project in 2024.”, or continue active work on the project if the project is multi-year and will carry-over to 2025 or beyond. (i.e. Major infrastructure or building upgrades largely dependent on external grant funding.)

Category 2: Subject to sufficient budgetary/grant funds and staffing capacity, commence project in 2024, with no commitment to complete the project in 2024 and carry forward to 2025 if appropriate.

Category 3: Reconsider dependent upon potential external grant availability and/or sufficient internal staff and budgetary capacity. Defer the project to at least 2025, or later in the remainder of the Council mandate—2024 to 2026

Appendix A: Completed Projects

Appendix B—P044 Series: Operations Projects

The following pages show the “Grid” of Projects for the District of Wells is organized in the Categories outlined above. Each Project has its own electronic and paper-based folder/file that holds all the details on all the Project.
